

Voice Over: Sharing, it's what kids do.

But every year an average of four million kids get the flu

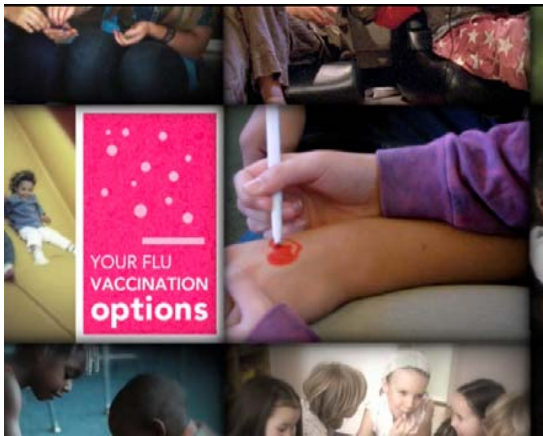

and miss out on sharing.

That's why we created GoodtoShare.com

Here you'll learn how to protect your family from influenza,

get facts on the latest vaccination options available from your doctor,

and hear what experts have to say on the value of sharing.

Flu Protection has never been more important—

so discover your options at GoodtoShare.com.

And, together, we can all be good to share.

MedImmune.
Sharing the science of flu protection
